Continued...

- 2) The four principal areas of HR; payroll, time and labour management, employees' benefits and hr management are affected by the HRIS. Explain how? (9 Marks)

Question 2 (25 Marks)

- 1) What are the main objectives of HRIS? (5 Marks)
- 2) Designing of HRIS involves four phases; Planning, Organising flow of information, Implementation and Feedback. Explain each phases briefly. (4 x 5 = 20 Marks)

Question 3 (25 Marks)

You work for a successful financial firm with approximately 500 employees. The organization's senior management arrives at the conclusion that it would be easier to achieve the strategic goals enumerated by the Executive Team if the various organizational functions would share information. Shared information would enable them to develop and deploy new action plans and strategic decisions more effectively and efficiently. As a result, the company's President and CEO have instructed the department heads to ensure their information systems are up to date so that data sharing is possible.

The decision has been made by the VP of HR and Executive Team to purchase an HRIS software application that would integrate most common business functions including: human resources, payroll, accounting and customer relationship management. You have been selected by your VP of HR to lead this project. After some discussions with department heads you realize that there are a large number of people (stakeholders/customers) who will be affected by the new system. Furthermore, you realized how important HR data is to the stakeholders.

Instructions: Using this background information and the information you have learned through lectures, answer and provide insight to the following questions:

- 1) Identify, with explanation, three different types of users/customers of the implemented HRIS. Ensure your answer includes the at least three different types of HR data each of these users/customers may need. (9 Marks)
- 2) Identify some of the individuals who would be logically members of the HRIS project team and explain why. (6 Marks)

Continued...

- 3) Select any one area of the HR function (e.g. recruitment) and make a list of the processes that will need to be documented and tracked during the planning of HRMS design. (10 Marks)

Question 4 (5 X 5 = 25 Marks)

As technology advances, technical changes create challenges to HRIS. Explain the challenges of HRIS based on the following factors.

- 1) Telecommuting
- 2) Employee surveillance & monitoring
- 3) e-HR
- 4) Artificial Intelligence and HR
- 5) Social HR
